# Meet Aura Air, the purifier that kills 99.9% of viruses and bacteria

Scientific research found that Aura Air detects, captures and kills 99.9% of viruses, bacteria, mold and VOCs so you can breathe freely.

## Full control

Take charge of your indoor air quality thanks to real-time smart insights and recommendations

## Effectiveness

Aura effectively kills 99.9% of viral particles, including SARS-CoV-2

## Set Your Rules

Define your automations based on your indoor air quality needs. Your Aura will take care of making it happen

## WELL Certified

Medically approved by WELL Building Standard to enhance human health and wellbeing

### PRE-FILTER

The first layer targets large particles, including dust, pollen, insects and animal hair.

### RAY-FILTER™

Our patented HEPA Ray Filter consists of 3 unique antibacterial layers that target fine particles (PM 2.5 and 10), germs, odors, bacteria, viruses, fungus, and mold spores.

### UVC LED<sub>s</sub>

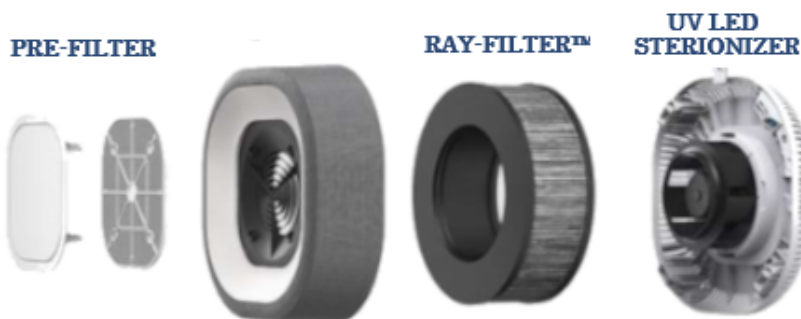

Exterminate bacteria, viruses and parasites by destroying their integral membrane protein.

### THE STERIONIZER™

Creates the pure air, just like in nature. Releases positive and negative ions to freshen up your indoor space, and removes any remaining harmful pollutants.

### SMART SENSORS

Your Aura can detect different particles both indoor and outdoor, and is always aware of temperature changes and other air quality factors. Thanks to the smart sensors, your Aura constantly adjusts and optimizes its operation.
